PROFESSIONAL SUMMARY

Frontend Developer experienced in building dynamic and high-performance web applications using React, TypeScript, and modern frontend technologies. Skilled in developing reusable, scalable UI components and implementing complex layouts. Built and contributed to component-driven architectures with focus on performance optimization, responsive design, and accessibility. Experienced in handling real-world UI challenges such as state management, dynamic rendering, and cross-browser compatibility to deliver consistent and intuitive user experiences.

WORK EXPERIENCE

Frontend Developer Intern - Uzence Design Studio

Feb 2026 - Present

- Contributed to building a React + TypeScript design system with 20+ components & 40+ utilities.
- Developed and optimized high-performance UI components in collaboration with the team, leveraging debouncing, list virtualization, lazy loading and efficient state management, improving rendering efficiency by ~25%.
- Designed and developed responsive, SEO-friendly UI layouts, and contributed to developer-focused documentation for UI utilities and components, improving developer experience and adoption.

Fullstack Developer Intern - Yourfit

Dec 2025 - Jan 2026

- Developed a responsive headless e-commerce storefront using Tailwind CSS and AI-assisted development tools, delivering a mobile-first UI.
- Integrated Shopify Storefront APIs to manage products, collections, cart, and checkout, enabling a scalable architecture.
- Designed and implemented structured product flows for categories, sizes, and variants, improving user experience and navigation.
- Optimized performance through efficient API usage and asset handling, improving load efficiency.

PROJECTS

1. SwapR

[Live Demo](#) [Github](#)

- Built a full-stack MERN application for buying, selling, and renting used products, focusing on responsive UI, clean UX, and scalable architecture using React.js and Tailwind CSS.
- Implemented secure authentication, dynamic product listings, and real time chat using Socket.IO, enabling seamless communication between users.
- Developed modular REST APIs with Node.js, Express.js, and MongoDB Atlas, improving server-client interaction and application scalability.

EDUCATION

Bachelor of Technology in Computer Science Engineering

Teerthankar Mahaveer University, Moradabad

2024 - Present | CGPA: 8.70

TECHNICAL SKILLS

- Programming Languages: JavaScript, Python, Java
- Frontend Development: React.js, Next.js, Tailwind CSS, Framer Motion
- Backend Development: Node.js, Express.js
- Databases: MongoDB (Atlas), MySQL
- API & Communication: REST APIs, Socket.IO
- Tools & Practices: Git, Github, Vercel
